New Telephone Rates Are Necessary

BECAUSE The old rates failed to provide any reserve provision for depreciation or wear and tear on an investment by the people of the Province of \$22,950,148.57.

¶ The old rates barely paid for operating expenses and interest charges on the capital debt.

¶ The interest charges of over a million and a quarter annually are fixed and must be paid.

¶ Operating expenses have been cut by \$10.08 per station in the last few years and can be cut no further without seriously impairing the service.

¶ The added revenues will secure adequate protection of the investment and put the telephone utility on a sound financial basis.

¶ The individual subscriber's share of the increase is small and he receives dollar for dollar of his rental in good telephone service.

¶ With adequate and fair rates, Alberta's telephone system is second to none in America. As a subscriber you appreciate this.

Government
Telephones**

Illuminated Lecture!

**MR. PETER STEWART,
Secretary the Seed Growers' Association.**

Will deliver an Illuminated Lecture on the Growing and Cultivation of Registered Barley, in

Wudel's Hall, Stony Plain,

at 8 o'clock on the evening of

Monday, October 11.

You are cordially invited to attend what is assured to be a very interesting and profitable lecture.

ADMISSION FREE.

LOCAL NEWS.

Mrs C. A. Gates is in Edson, attending a two-day convention of the Women's Institutes of Edson district.

John P. Miller has gone to Lloydminster.

Mr J. A. Barrie moved last week to his City residence.

Mr A. Meredith, Stony's bog buyer, on Saturday last was receiving congratulations from his friends on the anniversary of his natal day. In the evening he was "at home" for a short time to friends. August's birthday cake had 33 candles on it.

Dr. Scott Hamilton, dentist, has arranged to be in Stony Plain every Thursday afternoon, after this date.

Mr Chas Ries, Vernon B.C., is a business visitor in Stony this week.

On Friday last grades 6, 7 & 8 succeeded in beating a football team from the High School 2 goals to 0.

Stony Plain Town Council meets tonight.

The High School Lit is holding its regular meeting to-morrow, after school hours in the High School Building, when a very interesting program will be given.

Ing's Councilors met in Stony Plain on Friday last, with Rega McKinlay in the chair. The first matter taken up was consideration of the pay-sheets for road work done in the several divisions the past season. These were passed and ordered paid, if found correct.

Mr Bell, sales manager for Russell Road Machinery Co., was present, and gave a very interesting address on the repair and upkeep of roads. An old matter, the opening of the road west from Blueberry Church, was up for further discussion. This extension was made for the convenience of farmers living west of this point who, previous to the opening, did not have easy access to their farms.

Mr A. Tyrkalo, the owner, has had a claim filed against the municipality for the land expropriated. It is understood the Municipality had made an offer in settlement of the claim, but this had not been accepted. It is probable the matter will go to arbitration.

CHICKEN SUPPER, FRIDAY, Oct. 15, Wudel's Hall, 6 to 8.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Tuesday Oct. 19th; and at Duffield Wednesday Oct. 20. See him and see good.

RED ROSE TEA

"is good tea"

You've been intending to try Red Rose sometime. Why not now?

Growth Of Wheat Pool Movement

The farmers of Western Canada in less than three years, have established the largest co-operative organization of its kind in the world. The Canadian Wheat Pool, with its three units in the provinces of Manitoba, Saskatchewan and Alberta, now has a total membership of 125,000 farmers, who control 15,200,000 acres sown to wheat last year in the three prairie provinces. It is handling the sale of the greater part of the wheat production of Canada, and Canada already exports more wheat than any country in the world.

The first of the three wheat pools commenced business in the province of Alberta in October, 1923, and at the close of the first pool year on July 15, 1924, had handled 2,500,000 bushels of wheat shipped by its members.

Meanwhile Manitoba and Saskatchewan were organizing pools. In the fall of 1924, they had perfected provincial organizations and the three provinces then merged their selling strength into one giant marketing organization, known as "The Canadian Co-operative Wheat Producers, Limited." This agency is incorporated under a Federal charter, with very wide powers. Its function is to take delivery of the wheat from each of the respective provincial pools and to place it on the markets of the world in such a manner as to secure a price commensurate with the natural law of supply and demand. Each of the three provincial pools is responsible for gathering the wheat of its own members and placing it at the disposal of the central selling agency, which is controlled by a board of nine directors composed of the president, vice-president and one director of each provincial pool.

The largest proportion of the wheat is sold by the selling agency to importers and buyers in different countries of the world. For the agency has direct selling connections with every wheat importing country and its own representatives in 51 ports of the world. The funds which accrue from the sales are disbursed to the members of the three pools. This method of handling wheat provides a large volume through one agency and reduces the cost of operation to a minimum.

It is difficult, if not impossible, to estimate in dollars and cents the actual increase in the price of wheat attributable to the operations of the wheat pool, but the Pool, controlling as it does over 50 per cent of Canada's exportable surplus, has the opportunity of preventing large volumes of wheat being rushed on to the market and creating a glut which inevitably forces prices down. The strength of the Pool lies in its stabilizing power and in its facilities for selling in great quantities and in all countries.

This vast co-operative organization of farmers grew out of the experience of fixed prices for wheat established by the Canadian Government during the war, regulated by an official body known as the Wheat Board. Immediately after the war the farmers of Western Canada urged the Government to maintain the Wheat Board, as it had been brought into being and had functioned under a War Measure Act, the machinery for its maintenance automatically passed out of existence with the signing of the Peace Treaty. The wheat producers of the Canadian West, learning that the Wheat Board could not continue, began to realize the necessity of an organization of their own to handle the marketing of their wheat in a way that would prevent a too wide fluctuation and secure a better stabilization of prices.

Through the Pool the wheat is handled at cost and therefore at a saving to the farmer. The Central Selling Agency with its direct connections is able to eliminate some of the handling charges between producers and consumer that are incidental under any other method of marketing. Moreover, the Pool relieves the farmer of the necessity of guessing the right time to sell his grain and assures him of the average price for the year on all wheat it sells. This orderly marketing avoids the disastrous effects of the flooding of the market in the fall which prevailed under the old system.

The Wheat Pool in Western Canada is a notable example of the advancement made by the farmers of this stage. Already it has shown the possibilities and advantages of co-operative marketing. Under the old system the farmer sold his wheat and took what the market offered. In the Pool system he delivers his grain when convenient and obtains the average price of the selling period, together with the saving in the handling costs. The Pool price to every member is the price at Fort William, less handling charges and freight charges. The latter, of course, vary, according to the length of the haul.

With the development of Canada's agricultural areas, only one-fifth of which are as yet under cultivation, the growth of the Canadian Wheat Pool may reach a magnitude never before conceived in co-operative marketing.

She—Why is your voice so sharp?

He—Because I have been trying to get a word in edgewise for a whole week.

The man who tells you that he has nothing to say is usually capable of saying a good deal if he were so inclined.

Children Cry for

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Germany Now Thinks War Is Calamitous

International Strife Is Insanity on a Wholesale Scale

It was the fashion, only a few years ago, to glorify war and to create in the minds of young men an illusion of its necessity. Germany was particularly eager to give its youth a strong martial spirit and to hold before them military ideals. If Stresemann speaks for his countrymen—and there is no reason to doubt that he does—the Germans have had a complete change of heart. The appalling sacrifices of the war have taught them, as they have taught other nations, that war is not glorious, but always calamitous. International warfare is insanity on the wholesale scale. It is of course, natural and right that young men should go to the defense of their country when it is threatened; it is noble to lay down one's life for a just patriotic cause. But if wars can be prevented as they can, if the proper state of mind is cultivated, it is the duty of every young person to help the movement along.

RHEUMATIC SUFFERERS

May Obtain Relief by Enriching the Blood Through the Use of Dr. Williams' Pink Pills.

In the days of our grandfathers rheumatism was thought to be the unavoidable penalty of middle life and age. Almost every elderly person had rheumatism, as well as many young people. It was thought that rheumatism was due to exposure to cold and dampness, and it was treated with liniments and hot applications, but did not remove the trouble. In those days there were many rheumatic cripples. Now medical science understands that rheumatism is a disease of the blood and that with good red blood any man or woman of any age can defy rheumatism. There are now many elderly people who have never felt a twinge of rheumatism, because they have kept their blood in good condition, and there are many who have conquered it by building up their weak, watery blood. The blood-enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and the more general use of these pills has robbed rheumatism of its terrors. At the first sign of this insidious blood poison, protect yourself against the ravages of disease by taking Dr. Williams' Pink Pills. They have helped thousands. If you give them a fair trial they will not disappoint you. Their value in the case of rheumatism is proved by the statement of Mr. Finlay Beaton, Blackstone, N.S., who says:—"I feel it a duty to tell you of the wonderful benefit I derived from the use of Dr. Williams' Pink Pills. I suffered untold agony from rheumatism and a run-down condition. The trouble left me incapable of work of any kind, and for a part of the time I was unable to move without the assistance of a cane. I took different medicine from doctors and also other remedies that were recommended, but did not improve and had about given up hope of getting better when a friend advised me to try Dr. Williams' Pink Pills. I did this with the result that within four months I was as well as I have ever been. I can say that if I was a complete wreck when I began using Dr. Williams' Pink Pills, and that this medicine completely built up my health. This was some years ago, and I have no return of the trouble since. I give this statement hoping it will benefit others."

You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Aged Farmer Is Killed

Was Owner of 52 Quarter Sections in Saskatchewan

Death came instantaneously to Stanley Clark, wealthy aged farmer of the Frodoe district, when his automobile was struck by an engine. The late Mr. Clark was 70 years old, and was owner of 52 quarter-sections in Saskatchewan. The newspaper reports record the fact that the deceased had been a recluse since 1904, and "during all that time he had lived alone." It should also be written into the record, that the late Mr. Clark was a valued and respected member of the Wheat Pool, having secured a contract on the 29th of August, 1923, his number being 65-030.

Many Join Wheat Pool
A total of 31,442 acres of non-pool grain in Saskatchewan was won for orderly marketing by the operators and superintendents of Sask. Pool Elevators, Ltd. from September 12th to 20th—approximately 30,000 acres every twenty-four hours.

Claimed By Ireland

British National Anthem and "Yankee Doodle" old Irish Tunes

"Yankee Doodle" is not American at all—it's Irish, according to Dr. Gratian Flood, an Irish authority on musical history. He asserts that "Yankee Doodle" was originally an Irish air known as "All the Way to Galway." "God Save the King," the British national anthem, Dr. Flood says, is also an old Irish tune which originated about 1550 and has been going strong ever since.

A Household Medicine—That are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Nineteen Trans-Atlantic Cables

The nineteenth trans-Atlantic cable is now operating, and the twentieth will doubtless be needed, notwithstanding the advance in wireless communication across the seas, from the Boston Transcript.

The best known issue of "baby stamps" was begun Oct. 1, 1889, bearing the first baby portrait of King Alfonso XIII.

Do not allow worms to sap the vitality of your children. If not attended to, worms may make irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powder is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Steel phonograph needles that will play from 400 to 600 records without changing, are now made by a Missouri concern.

Storms On The Sun

Many Rapid Changes Taking Place Says Chicago Professor

Violent storms are raging on the sun as well as on earth at present, says Professor E. B. Frost, director of Yerkes observatory of Chicago. Glaring sunspots, visible to the naked eye through smoked glasses, give proof of the upheaval on the faraway planet he said.

Magnetic storms and northern lights may result from the distant storms, although no serious results will follow, the professor explained.

"The disturbance is in a solar latitude 23 degrees north, coming along the east side of the sun. Many photographs have been taken and very rapid changes are taking place," Professor Frost said.

Sunspots are not generally visible to the naked eye. We explained, unless group over vast areas.

Doctors Use It.

They recommend it also for sprains, bruises and other ills.

Building Auto Highways

For the development of local industries, as well as for military purposes, the Home Department plans the construction of more than 7,000 miles of automobile roads in Hokkaido, Tokyo, Kyoto, Osaka, and other prefectures.

Women in May, Northern Japan, admire bearded faces so much that they take their own to make them appear whiskered.

DOES NOT AFFECT THE HEART

Safe—Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 10 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade name (registered in Canada) of Bayer Manufacture of Monocetyl-salicylic acid. Bayer Manufacture of Aspirin is the only one in the world. While it is well known that Aspirin means Bayer manufacture, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their trade mark, the "Bayer Cross."

Mapping Spread Of Trees In The Prairie Provinces To Ascertain Rate Of Growth

Mapping the spread of trees in the prairie provinces with the object of ascertaining the rate at which spread goes on, is one of the latest activities in which Prof. V. W. Jackson, of the Manitoba Agricultural College, and other authorities on arboriculture, are engaged.

The mapping is being done in connection with a systematic campaign to have more of the prairie covered with trees than at present, the case and yet in no way interfere with agricultural development. With the exception of comparatively narrow strips of land along the banks of rivers, streams and lakes, the prairies were treeless up to the last century, according to Prof. Jackson, who in a statement quoted LaVerandry, the first white man to explore western Canada, as expressing his surprise at the lack of foliage on the prairies proper whereas some of the districts through which LaVerandry passed are now practically covered with trees.

So far, the spread of the poplar has been the most remarkable to be noted, according to Prof. Jackson. All through Saskatchewan "poplar islands" are forming and increasing in size, and it appears that the poplar spreads all the more rapidly as new land is broken for agricultural purposes. It is only a matter of a few generations until there will be no such thing as a treeless stretch of prairie of any great extent, Prof. Jackson states.

While the poplar is easily first in the way it adapts itself to the conditions of the prairie, satisfactory results are being obtained with oak and elm. Acorns, which have been sent to Beaver Lodge, Alta., and Red Deer, Alta., have germinated and the saplings give promise of developing into lovely trees. Elm seeds which have also been planted in Alberta have likewise germinated, and as in the case of the oak, the progress of the elm saplings is being closely watched.

Healthy Livestock In Saskatchewan

Work in Connection With Tuberculosis Test Shows Few Reactors

The first test in the area for the eradication of bovine tuberculosis in the six rural municipalities east of Long Lake, Saskatchewan, has recently been completed. This work was conducted by the Dominion Department of Agriculture and some assistance was given by the Provincial Government and the rural municipalities. In all 21,354 head of cattle were tested and only 176 reacted, or less than one per cent—83 per cent to be exact. This shows that Saskatchewan livestock are in a very healthy condition, and it is hoped that farmers in the restricted area will endeavor to improve the quality of their stock by making it a pure bred sire area as well.

Effeminate Youth

Chicago Doctor Says Thymus Glands Responsible For Vagaries of Present Generation

The trouble with the "effeminate youth and mannish flappers" of the present generation is that their thymus glands have continued to operate after their development from childhood. Dr. Victor H. Lindh, of Chicago, told the Ontario Druggists Practitioner's association in annual meeting here at Toronto. Dr. Lindh said the fact that the thymus glands were operating beyond their proper period was due to the softness and luxury which the march of science and civilization entailed in the lives of the average person of 1930.

Surprised When He Saw Canada

Mr. Alfred Bishop, who came to Alberta from the United States, has written back some of his impressions of the country to Mr. O. G. Rutledge, Canadian Government Agent, at 301 E. Genesee street, Syracuse, New York. Says Mr. Bishop: "I am going to tell you what I think of the Canadian West. I was surprised when I saw the amount of wheat grown in Canada. This country is the land of opportunity—and there is plenty of it."

Canadian Pacific Exhibits

Canada Being Advertised Throughout The World Through Agency of C.P.R.

One of the most potent ways in which the Canadian Pacific Railway is advertising Canada both in the Dominion itself and to the rest of the world is through the work of the Exhibits Branch of the Company, and some idea of the latitude and comprehensiveness of the efforts of this branch may be gathered from the fact that at the time this is written several expositions are being staged simultaneously under its direction—at the Canadian National Exhibition at Toronto; at the Sesqui-centennial Exhibition at Philadelphia; and at fairs at Quebec, Sherbrooke, London, Ontario, Fredericton and Saint John, New Brunswick. And this is but a phase of the unceasing work which is being performed by the Company in keeping Canada and the Canadian Pacific Railway before the eyes of the world.

For years the Canadian Pacific Railway has participated with an outstanding display at the Canadian National Exhibition at Toronto, and the exhibit, annually improved, is declared to be finer than ever this year. Months of study on the part of directors, weeks of labor on the part of painters, engineers and mechanics, have contributed to the fine artistic presentation, starting for its clever illusions and unique lighting effects. The whole presents a very complete survey of Canada, its scenic attractions, agricultural and industrial resources and commercial life. A model train, electrically operated and illuminated, specially brought from the British Empire Exhibition at Wembley, where for two years it was a centre of attraction, runs in front of a frieze which takes the visitor, through a cross section of Canada from Quebec to Vancouver. Such accurate attention has been paid to detail that central points as Quebec, Montreal, Toronto, the Twin Cities, Winnipeg, Banff, Vancouver and other cities are easily recognized.

Having regard to the increasing national character of the Canadian National Exhibition, and the manner in which it is attracting exhibitors and visitors from all parts of the globe, this is to be considered a national work of world-wide advertisement, in line with the policy adopted by the company in 1911 when inaugurating exhibits of negotiating no opportunity of bringing Canada forcibly and appealingly to the attention of the world. It is in a way comparable to the work the company performs periodically by representation through elaborate and expensive exhibits at the world's large expositions.

Some of these have been the New York Land Show in 1911 and 1912; the Chicago Land Show in 1913; the San Francisco Exhibition in 1914 and 1915; the Police de Lyons in 1913; the New York Chemical Exhibition; and the Tokyo Peace Exposition. For two years the company was represented through a handsome pavilion at the British Empire Exhibition at Wembley. Following this, space was taken at the New Zealand and South Seas Exhibition for an elaborate presentation of the Dominion. At the present time "Treasure Island," brought from Wembley, is an outstanding attraction at the Sesqui-centennial Exhibition at Philadelphia. Almost without interruption Canada is being advertised in some part of the world through the Company's participation in a world exposition.

The Exhibits Branch makes it a point to every year install exhibits at all the larger fairs throughout the Dominion, provincial, municipal, and civic, bringing to the attention of the people of one section of the country the beauty and resources of other sections. In addition it maintains thirty-five permanent exhibits in great centres of population in the United States and Canada, as well as others in the British Isles, with reproductions of Canadian scenery and samples of Dominion products which are potent advertisements of the country's opportunity to the people of the Republic and the world at large.

The Exhibits Branch has rapidly developed to be a very important phase of the operation of the railway,

of tremendous value to the Dominion at large, with branches that are many and wide-spread though frequently they are difficult to trace. Appropriations for this branch of work are now considerable; the men engaged in its operations are highly specialized; great artistic, mechanical and organizing ability are called into play. All this that Canada may be adequately represented wherever large crowds of people are brought together, and its opportunity kept ceaselessly before the world.

Making Use Of Nature

Invention Has Made Gas-Buoys And Lighthouses Automatic

An invention of which landowners know little, yet which saves their pockets to the tune of tens of thousands yearly, is the so-called sun valve by means of which gas buoys and lighthouses are rendered automatic.

Inside a gas buoy can be stored enough acetylene gas to burn for six months if the light can be turned down in the daytime. To do this work by hand would mean the employment of hundreds of men and launches, and would often be impossible owing to bad weather. But by means of the sun valve the sun is made to do the work. As day breaks the action of the light on a certain substance causes the tap to be turned so that the acetylene flame burns low. When twilight comes again the diminished daylight causes the flame to rise again, so that gas is only being consumed during the hours of darkness. Even a heavy fog causes the light to burn up brightly.

There is also an electric-light buoy of which the light is generated by a mechanism worked solely by wave action. This gives a more powerful light than the gas buoy, and, once installed, goes on working indefinitely. Inside is a turbine driven by a stream of water, flung by a pump, and this pump is worked entirely by the rise and fall of the buoy on the waves. Even a gentle swell will do the trick. The turbine runs the dynamo and the dynamo produces the light.

Advance of Japanese Women

Japan has its Council of Women, and at the recent annual meeting of the Empress of Japan attended in person and read the opening address. She was supported by one of the princesses, as president. At this meeting, which was held in a gaily decorated building in which the national colors were much in evidence, the Imperial ladies displayed their national costume for European dress.

Mythical Figure Of John Bull Is Linked Up With The History Of The British Empire

Cement Friendship

In Unique Manner

Ontario and New York State Farmers Hold Pleading Match

"Of all the things that have been done to signalize the long years of friendship between Canada and the United States, the most unique will be the international plowing match on the old battlefield of Lund's Lane in the Niagara district which will be held between farmers of Ontario and New York state.

We have celebrated the century of peace between Canada and the United States. Memorials have been erected at certain points on the 4,000 miles of unfortified boundary and we have lately had goodwill parties of each country visiting and being welcomed by the other. But none of these things was quite so striking as this transformation of the scene of deadly conflict into the peaceful scene of a friendly competition between members of the two countries who live by the soil.

Busy Bees In Manitoba

Big Increase In Honey Production Reported This Year

Manitoba reports a big increase in honey production for the sixth year in succession. Honey production for many years has been a profitable industry in eastern Canada, but it was really only about six years ago that the honey crop in Manitoba began to be important. It has increased during the last five years from 993,000 pounds in 1920 to 4,107,000 pounds, valued at \$616,068.00 in 1925. This tremendous increase in output has effectively proved that Manitoba's climate is well suited for the production of honey. This year the production will be even greater than last.

Had To Be Careful

The wife of a dyer man sent out for a preacher to come to the bedside of her husband, who was no better than he should have been. The preacher came, and said, "You had better renounce the devil, my friend."

"Renounce the devil!" exclaimed the dying man. "Why I am not in the position to make any enemies now."

—The Outlook.

Record "Muskie" From French River

This record breaking muskellunge of the season, 35 pounds in weight, was taken from the waters of the French River by the Canadian Pacific Bungalow Camp, by E. A. Parfitt, of the Garange Corporation of New York City. Parfitt and his guide had a twenty-five minute battle with this monster muskie before it was finally landed. Twice it leaped clear of the water and three times it took more than 75 yards of line.

Linked up with the history and personification of the British Empire is the familiar, if mythical figure of John Bull—a sturdy fellow, garbed in

terrestrial, leather breeches and armed with a stout, broken cudgel. Writing in a recent issue of John O'London's Weekly, "Washington Irving" expresses the belief that it is characteristic of the English, and their love for what is blunt, comic and familiar, that they have embodied their national oddities in such a figure.

"According to history, the moulding of 'John Bull' began in the year 1712, when John Arbuthnot, physician to Queen Anne, and a friend of Swift and Pope, published a pamphlet, 'Law is a Bottomless Pit.' Engraved upon the Case of Lord Sturt, John Bull, Nicholas Frog, and Lewis Raboon, who spent all they had in a lawsuit." Then, again, the name may have originated as a result of the theological controversy following the exit of James II, when the Dutch portrayed England, in print, as a lion, a bull, and sometimes a bulldog, indicating, no doubt, our determination and tenacity.

Gilray and Rowlandson are two prominent caricaturists who have played no small part in fashioning John Bull. The former's famous delineation was that of "John Bull Taking a Lunch," in which he is depicted, after the Battle of the Nile, making a meal of ships, with Admirals as waiters. "John Bull's Campaign," is perhaps the best known of Rowlandson's efforts, the sketch showing "John" demanding payment of the toll. The toll referred to the taking of the Test Oath for the purpose of keeping Roman Catholics from the fact that these two contributions were well known, it could not be said that either representation of John Bull was flattering.

It required the hand of Isaac Cruikshank to introduce a tone of refinement by making his John Bull a well-dressed, affable personage, reminiscent of the Pickwickian type in appearance. This marked improvement was further accentuated by the work of John Doyle, John Leech and Sir John Tenniel. For the John Bull as we recognize him today, we are indebted to the genius of the last-named artist, whose work was ably perpetuated by St. Bernard Partridge.

Opinion will vary as to whether our present conception of John Bull really exemplifies in the highest degree, the characteristics of the British race. Nevertheless, the sturdy figure undoubtedly symbolizes strength, tenacity, and determination, three traits of which we are justly proud.

Shot Bears In Arctic

Woman Hunter from California Returns With 29 Pelt

Experienced Polar hunters doff their hats to Miss Louise A. Boyd, San Rafael, Calif., who has returned to London after a six weeks trip in the Arctic.

To Miss Boyd belongs the distinction of having been the first woman to set foot upon desolate Franz Josef Land to which she made the voyage in Harold Amundsen's old supply ship Hobby. With Miss Boyd were Miss Janet Coleman, San Francisco, and Count and Countess Ryadovska, friends of King Alfonso XIII, of Spain.

From the 80th degree northern latitude Miss Boyd returned with the pelts of 29 polar bears, six of which she shot in one day. This it is considered is enough to turn curious eyes Arctic hunter.

The party captured five cub alive. Of the best of these Count Ryadovska will present one to King Alfonso XIII.

Miss Boyd took 21,000 feet of film, besides 700 photographs of Arctic scenery.

Expects Warm Welcome

Lady Willington has been spending most of August in London. "This is going to be a big change for you," ventured, "Yes, indeed," she agreed, it will be from China to Persia almost literally. "I asked her how she thought she would like the Dominion after so many years in India. 'We are sure to feel the cold,' she said brightly, 'but I am sure that the warmth of our welcome will more than compensate for that.'"

—The Evening Star, London.

MAGIC BAKING POWDER

There is far more **MAGIC BAKING POWDER** used in Canada than of all other brands combined

MADE IN CANADA NO ALUM

E.W. GILLEY CO. LTD. TORONTO, CAN.

WORLD HAPPENINGS BRIEFLY TOLD

Houses built of Canadian lumber after a Canadian pattern are to be given a trial in England after several years of agitation to this end. The London county council is the first to try building Canadian houses here.

The New York World says negotiations for the sale of the Sun and Telegram for approximately \$5,000,000 by the Frank O. Munsey estate to a group of men now publishing the papers are about to be closed. The group of purchasers is said to include editors and executives of the two papers.

Relieves Catarrh Almost Instantly!

Nasal catarrh clogged nostrils, obstructs breathing, causes head aches, dulls the brain, lowers the voice, causes the annoying sneeze of croup, whooping cough, a deliciously clean and pleasant home treatment, positively harmless to the most delicate tissues, but powerful enough to break up congestion, relieve inflammation, and kill germs within a few minutes. Your throat and nasal passages are cleared like magic—you breathe freely and easily as nature intended—and your dull old head feels clear and crisp.

To prove that this is definitely true and to quickly introduce the treatment to thousands of catarrh sufferers who need it—all druggists are now authorized to supply this **Wormwood** treatment. A strict guarantee of swift and full satisfaction or money back! No matter how many treatments you have used without success—if you really want relief from catarrh, don't miss this opportunity to try **Wormwood** Balm without slightest risk of cost unless pleased with results. A few boxes will last for weeks.

An instrument so sensitive that it records the messages sent to the brain of a frog when the creature's skin is gently pinched, has been invented by an English scientist.

Watch Your Daughter!

Mailfold Photo Studio

Stratford, Ont.—"Dr. Pierce's Favorite Prescription is the best tonic and nerve that can be given to a young girl while growing into womanhood. When I got to the age where I began to develop, I was very backward. I became so nervous I could not sit still. I was not able to sleep, had severe pains thru my back and head. I was very tired, weak and miserable. The lady where I was staying got me a bottle of Dr. Pierce's Favorite Prescription, and by the time I had taken it I was feeling fine, my nerves were good, I got strong, began to gain in weight and developed into womanhood naturally and never had any more trouble."—Mrs. Stanley Toner, 183 Ballway Ave.

Any drug store in tablets or liquid, or send life to Dr. Pierce's Laboratory in Bridgeport, Conn. for trial pkg.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liment compares in pain relieving power with Nerviline. For the minor pains and lils that arise in every family, Nerviline should always be kept handy on the shelf. Use it for lishes, matism, Lumbago, Neuralgia and Colds. 25 cents at all dealers.

Simplicity of Lines for School Days.

Flannel shows up smartly for this frock in a two-tone combination. It is a slip-over model, with the skirt front, pocket and Peter Pan collar in a plaid design. Long sleeves, slightly full at the wrist are gathered into band cuffs. The back is plain and a narrow belt ties in the centre back. The pattern is perforated for low round neck and short sleeves finished with cuffs. Any of the lighter weight woolen materials could be chosen for frock No. 1210. Size 10 requires 3 1/2 yards 22 inch material. 30 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

The Commanding Position Of Our Agriculture
By C. W. Peterson

The average person readily gives an intellectual assent to the statement that agriculture is our basic industry and the "backbone of the nation," but usually without any adequate conception of the fundamental facts of the case. It is a mere figure of speech. It is, therefore, well to consider briefly to what extent agriculture has been responsible for Canadian material progress. Forty-one per cent of our national production in the last census year was agricultural; thirty-three per cent was manufacturing; and our forests, mines, fisheries, construction, etc., account for 150 remaining twenty-six per cent. The eight billions of total agricultural capital in Canada represents 36 per cent of her total available wealth. Urban real estate accounts for 26 per cent, our railway plants, 10 per cent, forests, 5 1/2 per cent, mines, 2 1/2 per cent, and manufacturing equipment, 2 1/4 per cent.

It will thus be clear that Canada's agriculture looms up as the largest single factor in her economic life, and the farmers as the largest group of domestic consumers, consequently exercising a commanding influence in the general business conditions of the country. One-third of all revenue freight carried by our railways originated on the farm and another third at least, was represented in carrying commodities of all kinds back to the farm and the agricultural raw material to and fro. The Canadian farmer not alone feeds the nation, but exports on such a scale that credits are available to balance our international obligations and create a favorable trade balance.

Besides the millions of farm workers directly engaged in producing, there are other millions earning their living by performing work connected with supplying the implements, tools, shoes, clothing etc., for the farmer, with the manufacture of raw material originating on the farm and the distribution and transportation of such commodities. Who is bold enough to belittle the importance of agriculture in a country like Canada? It is perhaps well within the mark to assert that at least 80 per cent of Canada's total population, in every walk of life, depend absolutely on her agriculture, directly or indirectly.

These are imposing figures and should lead thinking men to speculate on the possible performance of Canadian agriculture were we in the happy position where more than a mere fringe of our agricultural area was on a producing basis. If, for instance, we were producing on even one half of our arable lands, instead of only one sixth, granting a fairly balanced population, all our present economic problems would vanish over night. The time is ripe for bringing such a situation about. We have the undeveloped natural resources, the markets are there, we only need the man-power to complete the circle. And this is purely a matter of intelligent, business organization.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Expeller.

First farmer—"That rainmaker is going to charge us \$1,000 for that shower yesterday."

Second farmer—"H'm. I suppose that's what they mean by saving up for a rainy day."

Well-Known Home Builder Quickly Restored To Health

Victim of Nervous Indigestion, Loss of Sleep and Intolerable Pain, Father of 8 Children, Finds Long-Sought Relief. Strength Restored. Praises Tanlac.

Joseph A. Brunet, a well-known Montreal building contractor, 2085 Hoyer Street, says: "The brain, muscles and splendid health of the strong man will break under the strain of modern living."

"I was suffering untold agonies when I began taking Tanlac. My strength had vanished. I couldn't work efficiently. I couldn't enjoy life as other men did. I had lost weight and was wracked by knife-like pains."

"I was completely discouraged when Tanlac was recommended to me and I took it. I recommend it to anyone who is ill."

and sluggish liver. It is nature's own remedy made from roots, barks and herbs according to the famous Tanlac formula.

Banish sickness from your life and enjoy the benefits of golden health. Begin taking Tanlac. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac—today!

Why Some Candy Doesn't Sell

Quality candy often finds a slow sale simply because it looks "cheap." Inferior wares discourage sales. But the Appleford wares win new customers.

The richness of butter Scotch slows through the transparency of Appleford wares. Kisses are more tempting in Appleford's desirable twisting tins. Caramels look more attractive in the Appleford's neat-folding wraps. The slight extra cost is a good investment.

SUNDAY SCHOOL LESSON
OCTOBER 10.

THE REPORTS OF THE SPIES

Golden Text: "We are well able to overcome it." Numbers, 13:30.

Lesson: Numbers 13:1 to 14:45.

Devotional Reading: Psalm 95:1-7.

Explanations and Comments

Twelve Spies Sent to Canaan; vers 1-20.—At last an encampment was made in the Wilderness of Paran at Uralbaine, on the border of the Promised Land. Then Moses sent twelve spies over the border to ascertain the nature of the land, whether good or bad, whether wooded or not to gain information as to the people, whether they were numerous or few, whether strong or weak, and also facts about how they lived, whether in cities, camps or strongholds. He also directed them to bring back specimens of the fruit they found in the land.

"The land was ready for the people, but were the people ready for the land? The report which Caleb and his companions was to bring was to decide, not a question of geography, but a question of philosophy. It was to test the present capacity of the people of God, to determine whether the heart of Israel was ripe for its inheritance." (Dr. George Matheson).

"What we do in the crisis always depends upon whether we see difficulties in the light of God, or God in the shadow of the difficulties." (Dr. G. Campbell Morgan).

Spelling Precious Stones

As pearls consist of carbonate of lime, vinegar and other acids will eat away the polished surface in a short time. Hot water is fatal to an opal, destroying its fire and sometimes causing it to crack. Soap is a deadly enemy of the turquoise. If a turquoise ring is kept on the hand while washing, in a short time the blue stones will turn to a drab grey.

THE NEW FRENCH REMEDY, No. 1

THERAPION

For the treatment of all diseases of the skin, such as eczema, psoriasis, etc. It is a powerful and effective remedy, and is used by the highest authorities in France and America.

He: Ah, darling, as we've got together under the spreading branches of this noble tree, I declare on my honor that you are the only girl I ever loved.

She: You always say such appropriate things, Paul. This is a chestnut tree.—T.H.B., London.

For all pains—Minard's Liniment.

He (musingly)—I wish I had money enough to get married.

She (coyly)—What would you do?

He—I'd buy myself an automobile.

The population of India is three times that of the United States.

Feet aches—Minard's Liniment.

TAKE STEPS TO STOP SMUGGLING ALONG BORDER

Ottawa.—Measures for the suppression of smuggling on the international border will be one of the chief considerations in the coming customs probe when it resumes shortly.

The order-in-council which enlarges the commission from one to three judges has been issued. It gives the commission the same powers which were possessed by the committee of the House of Commons which began the probe last February. It calls for the continuance and completion of the inquiry into smuggling in Canada and further charges the commission to find out whether the treaty of June 6, 1924 between Canada and the United States for the suppression of smuggling along the international border is being carried out according to the declared intent thereof and as to whether any amendment to the said treaty is necessary or desirable to ensure the suppression of smuggling.

The chairman of the commission is Sir Francis Lemieux, chief justice of the province of Quebec, who has already held a number of sittings. The additional judges are Chief Justice J. T. Brown, of the court of King's Bench, Saskatchewan, and of Judge William H. Wright, of the high court division, Ontario supreme court. It is probable that the new commissioners will meet Sir Francis Lemieux in the near future to draw up an itinerary of sittings to be held. Hon. N. W. Rowell will be counsel for the commission with R. L. Calder, Q.C., who acted as counsel for the parliamentary committee which investigated the customs department during the last session.

The date of the resumption of the inquiry has not been announced but is expected to get under way at an early date.

May Practice In B.C.

Rumor That Hon. Arthur Meighen Will Move to Vancouver

Toronto.—A staff special dispatch from Ottawa to the Globe says: "Right Hon. Arthur Meighen may become a resident of Vancouver, according to reliable information, and resume in the Pacific Coast city the practice of his profession. He has received important offers to join corporations both in Montreal and Toronto, but it is understood he is more disposed to go to the Coast. He has not yet reached a final decision on this matter."

"Sir George Perley is now the most likely person for temporary leader of the Conservatives during the coming session of Parliament."

Appointment Pleases Labor

Washington.—Labor, the official publication of the Railroad Brotherhoods and other railroad employees, gives great prominence to the fact that locomotive engineers are now being recruited from the ranks of the unemployed. Mr. Heenan, who is a member of the Brotherhood of Locomotive Engineers, is hailed as a veteran trade unionist. It says Mr. Heenan's selection is gratifying to organized labor.

Missionaries in China

London.—A despatch to The Daily Express from Shanghai says 560 missionaries are now isolated at Cheung-tu and are unable to escape from the city. The correspondent describes the situation at Cheung-tu as serious. The despatch adds Cheung-tu is the headquarters of numerous English and the United States missionary societies of all denominations.

Damage To Rural Phones

Regina, Sask.—The heavy snow and windstorm for the days of Saskatchewan a few days ago caused damage estimated at \$20,000 to telephone lines and poles. For many miles in the southeast section every telephone pole was broken down and the wires snapped and broken, the summary of the damage showed.

During her 20 months in office, Gov. Miriam A. Ferguson, of Texas, granted clemency to 2,333 prisoners.

The wife of the prince of India wears a diamond in her nose instead of upon her left hand.

W. N. W. 1649

Has Removed Civil Service From Politics

Successful Move in Manitoba

Winnipeg.—Efforts to remove the Civil Service from politics and to raise the standard of work have been successful in Manitoba, and now are meeting with success in the federal field, according to speakers at a session of the Citizens' Research Institute's convention here.

The reforms instituted, it was declared, are growing more and more popular with politicians, civil servants and the general public alike. "The old idea of the old saying 'to the victor belongs the spoils,' is giving way to the more honorable conception of 'the best shall serve the state,'" declared a paper by William Foran, secretary of the Canadian Civil Service Commission.

J. W. Fleming, Civil Service Commissioner for Manitoba, explained the reorganization and economics in the province. Manitoba civil servants now numbered 1,207 men. The organization had cut down the number from over 1,500 and efficiency had increased. Promotion, he said, was made from within the service in almost every instance.

Speaking from long Parliamentary experience, W. P. Cockshutt, Brantford, Ont., said the patronage system had been nothing but a "vote loser," and not a "vote catcher."

Major Hume Cronyn declared the needs of the Civil Service was that of poor pay, which he hoped to see remedied.

Military Scheme In Europe Against Russia

Baltic States, Britain and France Prepare, Say Bolsheviks

Leningrad, Russia.—Poland, according to reports received in Soviet news circles, here, soon will receive from France fifteen warships, comprising an armored cruiser, two torpedo boats and twelve submarines. The Polish government, it is also asserted, has received from Great Britain, means for extending and improving the Polish port of Gdynia.

This it is declared, is part of the intensive military and naval preparations by Britain, France and the Baltic countries against Russia. In accordance to Russian naval authorities, will soon begin the construction of a huge marine base on the Courland coast, while the Finnish government is said to have assigned funds for the construction of dry docks which will accommodate vessels up to 10,000 tons in Finland.

Finland, also, the Bolsheviks assert, is completing a modern naval base at Helsingfors, the nearest Finnish port to Russia, which in 1918 and 1919 was the base of the British fleet operating against Russia.

Hermits Left \$600,000

London.—Edward Brown, the legendary American millionaire, who lived as a hermit for thirty-five years in his yacht off Brightlingsea because of disappointment in a love affair in America, left property in England valued at \$600,000, the publication of his will shows Mr. Brown was 72 years old when he died last April. It is estimated he may have left \$2,000,000 during his stay here.

Will Attend Conference

St. John's, Nfld.—Prime Minister Monro, Newfoundland, accompanied by Hon. A. B. Martin, was a passenger on the Purcell Line Nova Scotia, which sailed for England to attend the Imperial conference. Hon. W. J. Higgins, Minister of Justice, has also left for England, to represent Newfoundland in the Labrador boundary case before the Privy Council next month.

Bandits Attack Motorists

Mexico City.—Bandits, again have attacked motorists near Mexico City. The authorities say that no foreigners were involved. Two Mexican motorists were wounded by the bandits, who escaped. Troops are said to be pursuing the outlaws. They are under orders to exterminate the band.

Accidents at Redox

Toronto.—Ray Millie, Chesham, Alta., sustained a broken leg when kicked by a horse; Coyote Frank of Great Falls, Mont., suffered concussion of the brain when thrown, and Dick Cooper of Jasper Park, Alta., had his forehead split open by a kick from one of his ponies at the rodeo here.

Addresses Research Conference

PROF. W. W. SWANSON

professor of political economy in the University of Saskatchewan, who delivered an address on "Tax Free Bonds" at the Citizens' Research Institute conference held in Winnipeg.

Has Faith In Canada

Lord Darlington Has Unbounded Optimism Regarding Our Future

Toronto.—They can no more stop this Dominion from becoming a great power in the world than they can the Horse Shoe Falls," declares Lord Darlington, noted British jurist, here in an address to the Ontario Bar Association, in which he expressed unbounded optimism in Canada's future. "Any one who has been in Canada as I have cannot help being convinced that it has a wonderful future. I only wish it had been borne in on everyone as it has been borne in on me, and Canada is not the only Dominion in the Empire. The Empire will develop. There can be no doubt about it."

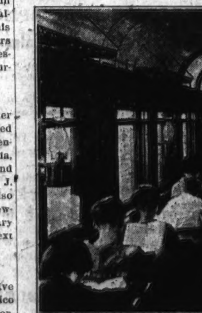

Would Help Politicians

Combining the Human Voice With Moving Pictures

London.—Government leaders, having been unsuccessful in showing themselves to the people through the movies, may now combine with the movie feature the transmission of their voices to the public. Following its recent widely displayed film showing cabinet members at work and at play, the Government has acquired a new invention which coordinates the human voice with the movies. Already Sir, William Joynson-Hicks, Home Secretary, has appeared in the movies with a speech given by means of the new device.

Will Consider Steamship Contract

Ottawa.—While no official statement is available at present, it is understood that the Government will consider the situation in regard to the Canada-West Indies steamship service very shortly. The contract for the service expired some time ago, and it has since been carried on a temporary basis.

Bringing the School to the Scholars

A school on wheels—a school that suddenly appears one day and goes and comes again—like a magic castle. It is doubtful if the news of an approaching circus, heralded by dazzling and wonderful advance posters has ever caused as much excitement as the announcement of the coming of the "Canadian Pacific School Train." In the hinterland of Northern Ontario. This unique experiment of bringing

Building 'Plane For Trans-Atlantic Flight

Giant Machine Is Now Under Construction in Italy

Paris.—The Cahors aeroplane works now are constructing an aeroplane of 2,000 horse-power for a trans-Atlantic flight, according to Clifford Harmon, wealthy sportsman and president of the International Aviation League. Speaking at a luncheon the league gave for Col. Faichl, Mr. Harmon said that he would back the colonel to make a trans-Atlantic flight. Mr. Harmon then told of having seen the giant Caproni being built.

"The Italian flyer who will pilot this plane has not been selected as yet," said Mr. Harmon. "But if Col. Faichl could I will back him to win and I will shoulder all the expenses of this attempt personally."

It is rumored that Col. Faichl, as well as the noted long distance flyer Commander de Pinerio, is being considered to make the flight.

Miners Are Rescued

Forty-three Michigan Miners Brought to Surface After Five Days' Imprisonment

Ironwood, Mich.—Forty-three miners returned to their homes after a successful five days' battle to release them from their underground prison in the G. Pabst iron mine, where they were trapped last Friday.

Rescue of the miners from the depths of the mine was completed at 11:20 o'clock at night. At that hour every one of the imprisoned miners had been lifted to the surface through an adjoining shaft. Physicians decided a day's rest in complete seclusion and hospital comfort, was the best way to safeguard the health of the men. Upon this advice, all men were ordered to Grandview hospital.

The first man to come out of the mine shaft was greeted by the cheers of thousands, the ringing of bells and blowing of whistles.

Police protected the rescued miners as they were brought up or walked out of the shaft one by one. When they were immediately to the mine rescue car, where they were examined.

Speeding Up Airplane Flights

London.—Great Britain at present does not hold a single record in aviation. It is expected, however, that three aeroplanes now being built secretly by order of the air ministry, will develop a speed of between four and a half and five miles a minute. It is hoped that with these craft Great Britain will obtain a new world's record for speed.

35 States Sign

Geneva.—The secretariat of the League of Nations announced that 35 states have signed the reply which will be sent to Washington on acceptance of the United States reservations to the World Court.

VALEDICTORY OF BARON BYNG ON LEAVING CANADA

Quebec.—"I return to England imbued with the ideals of Canadianism. I have absorbed them during five happy years in Canada and it is my purpose to do my very best to maintain them. The ideals of Canada have been beneficial to this country and they will continue to be so, but it is not only Canada that they will benefit, for they will exercise an influence far-reaching to the whole league of English speaking nations."

This was the valedictory to Canada of Lord Byng of Vimy, the soldier and administrator who for the past five years has presided over the destinies of the Dominion. His Excellency's term as governor-general began on August 11, 1921, has ended, and on Sept. 30, he and his gracious consort, the Lady Byng sailed down the St. Lawrence River on board the Empress of France, with their faces turned towards England.

Prior to his departure, His Excellency received a representative of the Canadian Press in the library of Spencerwood the residences of Lieutenant-Governor N. Peroudeau, of Quebec. It was not an interview so much as an informal chat, in which His Excellency gave expression again and again to his justifiable faith in the destiny of Canada and in the great part this country will play in the future, not only of the British Empire, but of the world.

Military Occupation Of Germany Is Hindrance

Described as Humiliating Now That Germany is Member of League

Berlin.—The German papers of every political shade view the German occupation in which a French officer killed one German and wounded two others, as proof that the military occupation system, constitutes the greatest hindrance to a French-German understanding. As long as foreign troops are on German soil, they say, there are no peace talks to occur, and one effect might be to wreck the entire work of conciliation started by Messrs. Briand and Stresemann in their conversations at Geneva and Thely.

Continuation of the occupation is felt to be particularly humiliating now that Germany is a partner with her former enemies in the League of Nations. The press is especially emphatic in demanding that measures might be adopted corresponding to the spirit of the Locarno treaties.

British Trade Unhindered

Military Intervention in China not Warranted Says Premier Baldwin

London.—Premier Baldwin told the House of Commons that British steamers are plying unhindered between Canton and Hong-Kong and that there has been no interference with British trade at Hankow despite recent agitation.

The Prime Minister said that reinforcements are now being sent to China to render the naval forces in the Far East sufficient to protect British subjects and interests. Military intervention is not warranted, Premier Baldwin said, and no army reinforcements have been dispatched.

Channel Swimmer Drowned

Boulogne.—The first tragedy due to ambition to swim the English Channel was recorded here when the body of a young Spaniard was washed ashore.

The body was identified as that of Luis Rodriguez Delara, who is said to have been a member of a prominent Madrid family.

Police acted secretly and without an escort in an attempt to swim the channel from France to England a few days ago.

To Try Another Swimming Stunt

Southend-On-Sea, Essex, Eng.—Nigel Leslie Delara, the Southampton swimmer, on September 17, swam the English Channel, says he probably will attempt to swim from Mull of Kintyre, Scotland, to Ireland. The distance between Scotland and Ireland is only about 13 miles. He says the tide is probably Bertha will have to cover many miles to get across.

A School on Wheels

1. The interior of the classroom. 2. A corner in the well equipped kitchen. 3. Showing the spacious teacher's sleeping accommodation.

It is doubtful if the news of an approaching circus, heralded by dazzling and wonderful advertisement posters has ever caused as much joy and excitement, as the announcement of the coming of the "Canadian Pacific School Train" into the hinterland of Northern Ontario.

There are more than fifty children in just one sub-division of the Railway who have never been able to go to school for the simple reason that there was no school to go to; but they have all heard of the joys of "school days," and longed for the day when they too might skip to school with a bundle of nice new books under their arm.

A little furor of excitement passed over this district a few days ago when the proclamation went forth that the school train was coming in the middle of September. "School—just think of it—and not the kind of school that the envied city and

town kids have, but a school on wheels—a school that suddenly appears one day and goes and comes again, like a magic castle."

This unique experiment of bringing the school house into the unbroken paths of this sparsely settled country is being carried on by the Provincial Government of Ontario in co-operation with the Canadian Pacific Railway, with a view to providing educational facilities to the children of railway men and residents in the remote stations along the line in the Northern section of the Province between Chapleau and Sudbury. This territory was selected by the Department of Education after making a thorough survey of the educational needs of the north, and should the travelling school prove to be a success it was intimated that the plan probably would be extended to include other railway subdivisions.

The School car is so fascinating that it would make anyone, no matter how old, want to go to school again. About one-half the car is devoted to the school room, which is fitted with desks for little boys and girls and big ones too, a desk for teacher, a blackboard, bookcases with school books and good fiction, and even a real bell to summon the scholars. Behind the school-room is the bedroom of the teacher and in the rear of this again comes a kitchen so thoroughly equipped with everything, from stove to ice-box, as to bring nary into the heart of any homemaker. The teacher's name is Walter H. McNally.

It is anticipated that the car will stop at about six communities during the month, making a brief visit of from three to six days. Upon leaving the teacher will give the children enough homework to keep them busy until the car returns again in the course of a month.

Notice to Creditors and Claimants

IN THE ESTATE OF PHILIP UNDERSCHULTZ (or UNDERSCHULTZ), late of Spruce Grove, farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named Philip Underschultz (or Underschults), who died on the 6th day of August, 1926, are required to file with ROBERTSON, WINKLER & HAWK, Solicitors, etc., 410 McLeod Building, Edmonton, Alberta, by the 3rd day of November, 1926, a full statement of their claims, and of any securities held by them, and that after that date, the executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

DATED at the City of Edmonton, in the Province of Alberta, this 14th day of September, 1926.
ROBERTSON, WINKLER & HAWK,
Solicitors for the Executors,
410 McLeod Building,
Edmonton, Alberta.

Trapp's Bake Shop.

SPECIAL TRAINS

—TO THE SEABOARD FOR—
Old Country Sailings.

SPECIAL SLEEPING CARS

From Vancouver, Edmonton, Calgary, Saskatoon, Regina

consolidating with special trains to the seaboard, to connect with various Christmas sailings, as follows—

FIRST TRAIN leave Winnipeg 10 a.m. November 22, to Montreal, for sailing of S.S. Athena, Nov. 25, to Belfast, Liverpool, Glasgow.

SECOND TRAIN leave Winnipeg 10 a.m. Nov. 25, to Quebec, (direct via north line) for sailing of S.S. Regina, Nov. 27, to Belfast, Glasgow, Liverpool.

THIRD TRAIN leave Winnipeg 4:30 p.m. Dec. 2, to Halifax, for sailing of S.S. Pennland Dec. 6 to Plymouth, Cherbourg, Antwerp.

FOURTH TRAIN leave Winnipeg 10 a.m. Dec. 9, to Halifax, for sailing of S.S. Leifvika, Dec. 12, to Belfast, Liverpool, Glasgow, S.S. Baltic Dec. 15, to Queenstown, Liverpool.

FIFTH TRAIN leave Winnipeg 10 a.m. Dec. 10 to Halifax, for sailing of S.S. Antonia, Dec. 13, to Plymouth, Cherbourg, London.

THROUGH TOURIST SLEEPING CARS

will be operated (if traffic warrants) from Vancouver, Edmonton, Calgary, Saskatoon, Regina; for S.S. STOCKHOLM, Dec. 5 from Halifax to Oslo, Copenhagen. S.S. ESTONIA, December 9, from Halifax to Copenhagen. S.S. FREDERIK VII, December 14, from Halifax to Christianand, Oslo, Copenhagen.

We will be pleased to give you full details.

or write J. Madill, District Passenger Agent, Edmonton.

Canadian National Railways

Here and There

Vancouver—According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 400 per cent. in the past five years, while the import trade has increased 51 per cent.

In a recent report from the Canadian Prefectural Agent at Shanghai received at Montreal it is stated that the summer in vicinity of Shanghai has been trying on account of drought. This may have a disastrous effect on the crops. The long and intense heat wave was only recently broken by a typhoon which struck the Coast near Shanghai.

A plan is projected by the Osaka Prefectural Government authorities in Japan for the promotion of a large exposition in commemoration of the tenth anniversary of the restoration of world peace. It is expected that the exposition will be opened in Osaka in 1928. The plans for the exposition, which will be carried out at tremendous cost, have been approved by the Prime Minister.

So successful on Canadian farms have been young bachelors, who, prior to residence in this country were students in agriculture at the Hodleigh Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The course will be given during six months, and will mean a thorough training in branches of agriculture, particularly adapted to conditions in Canada.

Prospects for the establishment of an air route in Japan for mail and passenger service have brightened with the announcement that the Ministry of Communications have included an appropriation in the budget of the Communications Department for such a service. It is anticipated that there will be enough passengers willing to pay double the railroad fare for the sake of speed between Osaka and Tokyo, the leading cities of Japan.

The Hebridean emigrants who are leaving their lone shillings and misty islands for a new life in Canada have, curiously enough, hitherto been ignored by the novelist, although the romance of this migration, extending over a hundred years provides a wonderful field for fiction. The extent of this field has now been realized, however, in the new novel "Eyes of a Gypsy," by the Canadian writer John Murray Gibson, who is the well-known author of "Drumhead Affair," etc., and Dean of Publicity of the Canadian Pacific Railway.

Action should be taken by the authorities in the Province of Quebec to shorten the open season for hunting deer and moose, according to Omak Ripley, well known writer on animal and wild life and prominent hunter and angler. Mr. Ripley also believes that the deer season is too early as in September the deer are still in their red coats, and their numbers are only conserved through their ability to hide amongst the leaves of the underbrush which have not yet fallen. He believes that a scarcity of this game will result from the lengthy season.

The Earl of Clarendon, Under Secretary of State for Dominion Affairs in the British Government, who has been touring the Dominion investigating the conditions under which the 3000-family scheme from Great Britain is working out, declared, in an interview at the Canadian Pacific Windsor Street Station at Montreal recently, that one of the greatest things upon which the success of the scheme depended was the loyalty and cheerfulness of the mothers of families brought out to Canada to be located on farms. His Lordship paid a special tribute to the type of women brought out under this scheme whom he had met during his personal visits among immigrant families.

Will Not Reduce Pensions
New Regulation Extends the Principle of the Irreducible Minimum.
No further reduction will be made in the pensions of less than 50 per cent, providing that during treatment the presence of active disease was definitely established. This announcement was made recently by the Dominion headquarters of the Tubercular Veterans' Association, following negotiations with the board of pension commissioners. Last spring the board conceded the justice of an irreducible minimum pension of 50 per cent, for tubercular veterans in receipt of that amount or over. The new regulation extends the principle of the irreducible minimum rate of pension to those in receipt of less than 50 per cent.

Mothers Treat Colds The New "Direct" Way
No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.
Children's digestion is easily upset by too much "dosing." Vicks VapoRub externally applied, does not upset little stomachs.
At the first sign of cold, sore throat, or any other cold trouble, apply Vicks freely. There is nothing to swallow—just "rub it on."
VICKS VAPORUB
Over 21 Million Jars Used Yearly

"You will be something of a sensation, tonight, my dear!" the older woman exclaimed, when Joanna had walked across the room, and had whirled and stood still for her inspection. Joanna was much too happy to reply.
Yvonne's appearance among her guests was the signal for dancing to begin—also for the breathing of all barriers; built by formalities. Women who had gathered in stiff little groups to discuss other women or the escapades of other women were swept away to their first dance and their first drink and the first round of their preferred flirtations. The big drawing room had been made into a dancing room. In the winter garden the only lights were flickering lanterns hidden among the foliage. Great palms made screens across corners of the drawing and sitting rooms, and in the hallways. "Yvonne," said Mrs. Brownlee-Smith, "knows that two people never have to fumble for conversation when they're hidden behind palms."
(To be continued)

Dressing Children no Problem Now!

It doesn't cost much to keep the youngsters dressed in all the pretty colors of the season! Buy less, sew less—The results are perfect, when you use real dye. Right over other colors, any kind of material, in an hour's time! Keep your own clothes in style, too, by making them the newest shades! Also, the drapes and hangings in your home.
FREE for the making, at any drugstore: the Diamond Dye Cyclopedia, full of suggestions, with easy directions. See actual piece-goods color samples. Or write for free illustrated book, Color and Diamond DYE, DIAMOND DYES, Dept. N10, Windsor, Ontario.

CHAPTER XVI
Joanna's Debut
It is only in the great capitals of the world that one may witness, or participate in, a gathering such as Yvonne Coutant delighted occasionally to preside over in her town house off the Avenue. They are not uncommon in Paris where a Palace of Louis may any time transform a miniature palace into the Bois into an exotic fairyland for a wild, barbaric fête. They were brilliant punctuations in the Bohemian calendar of old Vienna, and in London, occasionally, a rampant beauty, perhaps a mannequin newly married to a duke, or a young duchess divorced from one, will celebrate by turning one night into enough extravagance to keep Mayfair gossiping for a month.
In America they are rarely accomplished. The Ambassador of Paris and the diplomat from London are not accustomed to ignoring the barrier between them when occasion arises. It is an extraordinary hostess, in America, who can successfully bring together all grades of society, not rich and poor, so much, as the good and the not so good.
Yvonne Coutant was one of these. She had no scruples when she opened her house, as to who came into it. She demanded only beauty, external grace, and a willingness to be an appropriate picture for the shining, golden frame she provided.
"One simply cannot afford not to be in on one of Yvonne's affairs," Mrs. Brownlee-Smith, of the Polo court, gossipedly said. "One's husband is sure to be there, and so is his favorite

WOMAN COULD HARDLY WALK
Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now, and I had a female trouble so badly I could hardly walk and I was run down and could hardly get around to do my house work. I would be bed three or four days at a time. I was told your Vegetable Compound, I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-up children for me, I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I own my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."
Mrs. NELLIE HORN, 28 St. Matthews Avenue, Hamilton, Ontario.
"You feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition."

of the moment. I always go in order to discover who Tom's loving now. It's the only way I have of checking up on the distractions of his taste."
"Yvonne's former latest former husband, Alfred Coutant, the novelist, never missed her entertainment. I got at least four chapters from every one of them," he would explain. "She's as good to let me come—sort of a July like, you know."
So it was that an interesting company proved about among the roses and lilies and daffodils that filled every corner of the spacious house with fragrant baskets of thick, flaming carnations, relieving the gloom of the threats of winter. And so it was that Joanna stood, arms outstretched, that she might realize the line and symmetry of them, before the long mirror in her dressing room, upstairs. The slim body of her was vibrant with memories of the day and costumes for the night. In her eyes were all the sedates. Striven around her were the things from the shops—more gorgeous things from more gorgeous shops than she alone, ever could have discovered. It was from them she had made her choice—or Yvonne had made it for her—and she stood, before the glass, a soft, mellow vision of lace and chiffons fashioned by deft fingers and cunning backs to emphasize that beauty of display that only a sculptor could capture more accurately or frantically. On the dressing table before her were spread the souvenirs of an hour with Yvonne in the great jewelry store; wristlets of diamonds, rubies and sapphires; beckets of platinum chains, as thin as the sheerness of lingerie, with shining gems in their delicate pendants.
From all of these Yvonne had chosen a single ornament, a rope of shimmering pearls, that would once around the slender, partly veiled neck.
"Miss Twenty-seven of the Silk" had completed her transition and awaited her, summons into the magic world below—the magic world where money bought a smile or a kiss bought pearls like hers.
While Joanna stood before her mirror, Andrew Eggleston sat at the long carved table in the sombre-toned library of his house—which was not of the Avenue, but still on it, stubborn ghost of the days when the Avenue was jealous of its exclusive rank. Yvonne's eyes carried the loveliness her mirror reflected; a loveliness that optimized, as in alabaster dust, all the pretenses of her kind. Her toes tingled with the promise of adventures. "Dimples danced their provocations about her mouth. Through the slim web of chiffons youthful limbs flicked at the cunningness of the courtier's mask of them; gold brown hair, bunched close to the restless head, delicately arched eyebrows shaped as only a painter could conceive them; and arms and bare shoulders made a marvelous ensemble of enticement.
Andrew Eggleston, in the heavy library room, also eyed a vision—also the figure of a girl, and of Joanna's age—but of a long time ago. The girl the banker watched looked down at him, from a canvas, held in its frame by the great, gleaming, alive frame over the great fireplace. There was no dancing in her eyes, but

a wishfulness that seemed to reach out to the man who gazed, like a quivering beam of mellow radiance. The lips were blood red, and full, and shaped for a kiss, but they were not scarlet, nor voluptuous. They were as if there was no such thing as a lip stick. The hair was brown, shimmering, as Joanna's, but it was not bobbed—but piled in glorious opulence.
The banker, who would have been young when this girl in the gold frame was young, passed his hand across his brow, to break a spell which the girl in the painting encompassed him. Then his attention fell to bits of paper spread before him like the dew on Joanna's dressing table. One by one he picked them up and read them—read the cancelled checks which signified the purchases Joanna had made that day, checks that had been hurriedly cashed so the girl might take her purchases away with her. They totalled thousands, many thousands. At the jewelry store alone Joanna had spent more than a tenth of her million dollars. It was all tallied in the cancelled checks.
"The play begins! It is to be a comedy, after all!"
It was said quietly, evenly, but there was just a pin-point in the tone that might have been repressed exultation. The speaker stood behind the banker, a figure in twilight evening clothes, silk huffed, white gloves! About his lips played the wealth of a smile—a cynical smile. In his eyes there was amusement. Just at that moment, an ancient butler appeared at the library door and spoke:
"Your car has arrived, Mr. Brandon."
Eggleston started. "You will be seeing her, tonight, then?" he asked calmly.
"Yes. She will be plunged into the abyss tonight, by her new friend, Yvonne Coutant. She will swirl like a sinuous mermaid through the world's senses of half a score of old men whose lips she'll moisten with wine of her, and half a hundred young men who will make wagers as to which will be first to break her. The end is in sight tonight."
Eggleston did not reply to the comment. He raised his glance again to the girl in the painting. Then he said, heavily:
"Still, I'd like to see her—here, in this room. Arrange, some way, to bring her tomorrow."
Brandon bowed slightly, and went out of the room and to his car which waited at the curb. He gave his order briefly: "To Miss Coutant's."
Meanwhile Joanna, before her mirror, waited to be summoned to the old men and the young men, and their young women and old, downstairs.
Yvonne appeared in the doorway. The younger girl gave a little gasp when she saw her. In contrast to the soft white tones of Joanna's gown, Yvonne's was a shining black, velvet that clung to the curve of her figure like a sheath, giving her volcanic and uncovered black shone boldly and hair its complement. Her shoulders glimmered white.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE
Baby's Own Tablets Are the Ideal Remedy for Babies and Young Children
Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is absolutely safe at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them have nothing else for the ailments of their little ones. Among them is Mrs. Howland, who says: "I can strongly recommend Baby's Own Tablets to mothers of young children. I know of nothing to equal them for little ones."
Baby's Own Tablets are sold by Medicine Co., Brockville, Ont.

Little Helps For This Week
A merry heart maketh a cheerful countenance.—Prov. ix, 17.
Why not take life with cheerful trust. With faith in the strength of weakness?
The slenderest daisy rears its head With courage and with meekness. A sunny face Hath little grace To woo the sun forever.
—Mark & Moses Dodge.
It is part of my religion to look well after the cheerfulness of life, and to let the dismal shift for themselves, believing with good Sir Thomas More that it is vain to be "Merric in God."—Louis May Alcott.
I do not know any way as sure of making others happy as of being so one's self.—Sir Arthur Helps.
If an employee doesn't know his place he need not expect to keep it long.
Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.
Back pay is usually slow about coming to the front.
Mingard's Liniment for chapped hands.

Mr. and Mrs Brooks Leave

Mr R B Brooks, the well-known insurance man, has been given an appointment in Edmonton, with The Sun Life, and left yesterday to fill his new post.

Mr Brooks came to Stony to reside on his appointment as inspector by the Dept. of Education, in 1917, to supervise Stony Plain Inspectorate and has resided in Stony Plain since that time. In 1922 when the Farmer government decided to reduce the number of inspectors, he went into the insurance business.

Since coming to Stony Mr Brooks has lent a hand in all good work undertaken for the advancement of the town and district. He has been on the town council for several years; has taken an active part in the doings of the curling club since its inauguration in 1923.

Mrs Brooks has been active in the work in connection with the Union Church here, and has been president of the Ladies Aid in that connection. She has been president of the local branch of the Women's institutes, and took an active interest in all its proceedings. This worthy couple leave Stony with the good wishes of a large circle of friends, who will wish them every success in their new sphere of influence.

W. I. Constituency Meet.

At the Thursday session of the Edmonton, Sturgeon and Stony Plain constituency convention of the Women's Institutes in Edmonton, election of officers took place. Mrs J Macgregor Smith was re-elected constituency convenor for the Sturgeon and Edmonton constituency. Mrs R H Wood is the convenor for Stony Plain constituency.

Mrs C. A. Gates, of Stony Plain (Convenor of District No. 2), gave an inspiring and interesting talk on "Pictures" showing copies of different pictures and carrying her points well.

That there is a leaning towards a destruction of some of our finest ideals of service, was the theme of an eloquent little talk given by Miss Jessie McMillan. Mrs Arthur H. Rogers told a bright little story of what she termed the "aftermath of the Alberta adversity campaign."

Mrs J. M. Smith spoke in brief and interesting fashion of the Canadian national exhibition in Toronto this year, describing the Alberta Women's Institute booth and those of the other provinces. Mrs J Rowstead led the community singing. Mrs. M. E. Mullett was the capable accompanist. Mrs Bowstead also sang "Trees" by Joyce Kilmer, and "Old Refrains" by Kreisler.

Mrs L. Kowensky was the delegate from Stony Plain.

The Weekly Poem

Oct. 20, in Wudel's Hall, The Girls of Stony give a Ball. O Boys, you certainly run so.

Be sure and come and attend this dance. One dollar a couple; ladies free; In the bargain you get your lunch and tea. —Opal Varner.

Stony Plain and District.

On Monday, Oct. 4th, in Spruce Grove district, to the wife of Mr John Schuetz, son.

At Highvale, Sunday Sept. 26, to the wife of John Tenny a daughter.

J A Jamieson was a business visitor to the City on Monday.

Mr Zerler, who had spent the summer in Saskatchewan, has arrived back in Stony.

Mr Walter Clausen arrived from Germany Saturday morning, and is visiting with relatives at Brigetbank.

Martin Larsen, one of the original settlers of this district, motored up this week from his present home at Palmdale, Calif., renewing old friendships.

Mr Kuul of Spruce Grove, who is teaching school at New Sarepta, paid a visit to Hay Lake last Friday, getting acquainted with the teachers of our community. —Hay Lake Times.

Miss Bessie McLaughlin, right from Ireland, is the new teacher at Carvel School; replacing Miss Miller, resigned.

Good progress is being made on Elevator No. 2 at Carvel being erected by the Gillespie Elevator Co. It is located just east of the other, and will be handling grain this fall.

Plans are being prepared for the new School House about to be erected at Carvel Village. The location is just west of the R. C. Chapel, and tenders will be called for the erection of the building very shortly.

Mr Hadley of Stryal is, this week, engaged in making some needed improvements to the Jasper Highway near Evansburg.

Calendar.

Oct. 8 — High School Lit. meets.
11 — Free lecture, Wudel's Hall.
19 — Mecklenburg the Optician at Royal Hotel.
27 — Sitting in Stony of District Court.
29 — Dance in Wudel's Hall, Edmonton orchestra.

Mr. Dickie Leaves

The Grave last week lost one of its leading citizens in the person of Mr G R Dickie. Altho but a recent addition to the burge, still, in a short space of time, Mr Dickie has succeeded in putting the Grave permanently on the amusement map thru operating the Jasper Highway amusement hall and tea room. After sur-

One Enterprising Promoter.

mounting innumerable difficulties, George made a success of the place, much to the surprise of some in the district who shook their heads when the enterprise was first launched.

Mr Dickie left on Saturday for Lloydminster, where he has undertaken a large construction job at that town.

Altho George gave but a short notice of his intention of leaving temporarily, still it was being arranged to give him a farewell banquet as a memento of the esteem in which he was held, but the plan had to be abandoned, as it was found the local banquet hall had been hired for this date for another purpose.

Mr Dickie carries with him the good-will of all who admire an enterprising promoter, and, on his return, is sure to get a cordial greeting. —You can't keep a good man down!
